Dear Stakeholders,

We are excited to once again host our Stakeholder Advisory Group meetings for the 2026-2027 school year. These groups foster stronger collaboration and engagement between our school district and the community we proudly serve. If you are interested in serving on our Parent/Guardian or Community group, please email mandy.bradley@zacharyschools.org. Our first meetings will take place starting in late September/Early October 2026.

Zachary Community School District Stakeholder Advisory Groups:

- Parent/Guardian Advisory Group
- Student Advisory Group
- Teacher Advisory Group
- Support Team Advisory Group
- Community Advisory Group

We firmly believe that the success of our schools depends on the active participation and input of all stakeholders. Our schools are more than just buildings; they are centers of learning, growth, and development for our students, and they have always played a pivotal role in shaping the fabric of our community.

The primary purpose of the Stakeholder Advisory Groups is to provide a platform for open dialogue and meaningful interaction between our district leadership, educators, parents, guardians, students, and members of the broader community. These advisory groups serve as a vital conduit for sharing insights, ideas, concerns, and recommendations that will directly influence the decisions and policies that impact our schools.

The goals of the Community Advisory Group are as follows:

- Enhance Communication: Foster transparent and two-way communication between the school district and the community to ensure that everyone's voice is heard and valued.
- Collaborative Decision-Making: Engage in collaborative discussions that contribute to informed decision-making processes, ensuring that a diverse range of perspectives is considered.
- Support Student Success: Identify ways to enhance the educational experience for our students and create opportunities to expand supportive learning environments.
- Community Engagement: Strengthen the bond between our schools and the community by promoting participation in school-related activities and initiatives.
- Address Concerns: Provide a constructive space for addressing concerns or challenges faced by the district and seek collective solutions.

Last year, our Stakeholder Advisory Groups assisted the district by giving us invaluable feedback that allowed us to make immediate and long term changes in many areas. We appreciate the positive impact they have had on our schools and community. Our school district has always appreciated the support of our stakeholders and we are excited about the opportunity to continue to work together building even more relationships that connect our schools to our community. Our district theme this year is "Excellence Lives Here," and these advisory groups will serve to foster the goal of continuing excellence by securing the resources we need to ensure continued growth, innovation, and excellence in everything we do.

Together in Education,
Ben Nécise
